# **ABOUT ANDI BUERGER**

## **Survivor | Author | Advocate**

**Andi Buerger is a highly sought after international speaker, author, and fearless advocate for the voiceless victims of human trafficking and sexual exploitation. She holds a degree in Business Administration as well as a Juris Doctor Degree.**

**A fearless warrior since the age of 19, Andi's relentless pursuit to help victims of human trafficking and sexual exploitation find healing and hope has garnered worldwide attention.**

***"Human trafficking is not about right versus left. It's about right versus wrong."* - Hon. Blanquita Cullum**

**Her calling to create greater global awareness to prevent more victims from getting snared in the trap of predatory criminals has required tremendous personal sacrifices - and attracted opposition from those who have the power to enforce the laws to put predators away for life.**

**Andi founded Voices Against Trafficking which assists with rescues on a case-by-case basis, provides educational tools and training programs, creates books and magazines to help start conversations about these human rights topics, professionally produces PSA's for media worldwide to use, and offers creative fundraising campaigns such as the current "Broken Treasures" limited edition music CD to raise dollars for more programs like custom shelters for victims and highly trained special skills teams to execute live rescues.**

**One voice. One vision. Nations in need of truth and hope.**

# The Treasure Hunter

Restoring value and worth to the lost and broken For Media and Speaking

Andi's quest is to reach as many of those who feel lost and worthless, without value, without a future or a hope, and help them recognize that they are precious jewels in life.

**"I'm a treasure hunter. Having been broken and shattered myself, I understand the need to show others their value and worth regardless of where their brokenness has come from in their lives. So many populations are suffering now. My focus has been human trafficking, sexual exploitation, child abuse because it's evil and destroys communities from local to worldwide - and it's personal."**

**~Andi Buerger**

The world in general forgets those who don't look like, talk like, or follow the current norms or trends. It ignores or displaces those it sees as 'not good enough' or those opposing the popular trends. Andi Buerger believes that human beings can be better than that. Her goal is to bring as many of the 'discarded' innocents back into communities where they can find a new normal and rediscover the value and worth they've always had.

*Broken Treasures* was an inspired title reflecting the truth and the hope of humanity. Every human life has value and worth . That's the treasure part. However, many people have experienced brokenness in one form or another. That's the truth. Even if a life is broken and shattered, it still has great value. It's how the pieces of that life are gathered up and put back together to make it whole again. That's the hope - and humanity's treasure.

**Worldwide distribution to over 150 countries!**

*Broken Treasures* is a music compilation featuring national, international, and up-and-coming artists and celebrities who are passionate about saving children in every country. It provides tracks from multiple genres to inspire action worldwide by being the voice for the voiceless.
